Dear Task Force Members:

The attached [report](#) apparently issued by the former Pittsburgh & Lake Erie RR Co. c.1985 notes the problems caused by Conrail's network rationalizations and liquidations in Ohio and adjacent states. Unfortunately CSX acquired P&LE in 1993 and its proposals were not pursued further; however P&LE's solutions have implications for the congestion and capacity crises being investigated by the Task Force. A previous owner of the report highlighted select report pages.

Again I thank the Task Force for its time and I can be contacted for any questions or clarifications.

Sincerely,

Daniel L. Van Epps
