

The Newburgh & South Shore Railway Company.

(SOUTH SHORE BELT LINE)

OFFICE: 8143 BROADWAY

F. A. GIDEON

PRESIDENT AND GENERAL MANAGER

CLEVELAND, O. April 24, 1934

Mr. L.E. Kipp,
Tariff Publishing Agent, Western Trunk Line Committee,
Room 216 Union Station, 516 West Jackson Blvd.,
Chicago, Ill.

Dear Sir:

Replying to your circular of April 18th, file 11-N.

The Newburgh and South Shore Railway is a terminal switching railroad; its main line extending only 6.4 miles. Connections are maintained with the Baltimore & Ohio, New York Central, Pennsylvania, Erie, Wheeling & Lake Erie, Cuyahoga Valley, River Terminal, and through the New York Central and Wheeling & Lake Erie with the Nickel Plate and Big Four Railroads, as per map attached.

This is about the only information we can give you, as we do not publish distance tables, and hope it will answer your inquiry.

Yours truly,

F. A. Gideon
President & Gen. Mgr.
