

5537.21 Project continuing to be operated and maintained as toll road way.

(A) When bond service charges on all outstanding bonds issued in connection with any turnpike project have been paid or provision for that payment has been made, as provided in the applicable bond proceedings, or in the case of a turnpike project in connection with which no bonds have been issued, the project shall continue to be or be operated, and improved and maintained, by the Ohio turnpike commission as a part of the Ohio turnpike system and as a toll ~~road~~ way, and all revenues received by the commission relating to that project shall be applied as provided in division (B) of this section.

(B) Subject to the bond proceedings for bonds relating to any turnpike project, tolls relating to a turnpike project as referred to in division (A) of this section shall be so fixed and adjusted that the aggregate of revenues relating to that project and available for the purpose are in amounts to provide moneys sufficient, and those revenues shall be used, to pay the costs described in division (C)(1) of section 5537.13 of the Revised Code.
